PHASE 2

Phase 2: Requirement Analysis

Global Olympic Sports Performance Analysis

Goal

Turn the idea into clear requirements: what the dashboards must show and which tools to use.

What we do in this phase

- Finalize the project objectives
- Define the required views: medal distribution, country ranking, sports, trends
- Confirm the tools: Tableau Public, Microsoft Excel and CSV
- Define the filters users need: country, sport, year, medal type

Deliverable

Requirement document
